DETAILED ACTION

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Lew Edward V. Macapagal #55,416 on 15 and 18 September 2006.

The application has been amended as follows:

Claim 27 is amended to add the substance of claims 28 and 29 at the end of the claim as follows:

-- a third capacitor connected in parallel to an input terminal of the first attenuator; wherein the first diode attenuates the RF signal transmitted through the third capacitor. --.

Claims 28 and 29 are cancelled.

As to claims 1, 4, 12, 14, 20, 21, 22, 24, 25 and 26, delete all instances of – short key – .

Response to Amendment

The amendment filed 14 July 2006 introducing "(schottky diode)" to the Specification is objected to under 35 U.S.C. 132(a) because it would introduce new

Art Unit: 2618

matter into the disclosure. 35 U.S.C. 132(a) states that no amendment shall introduce new matter into the disclosure of the invention. Consequently, the amendment to the specification is not entered.

Allowable Subject Matter

Claims 1-8, 12-18 and 20-27 are allowed.

The following is an examiner's statement of reasons for allowance:

Independent claims 1, 14, 20 and 27 comprising a variable attenuator have been amended to further comprise additional specific circuit and circuit components to differentiate from the prior art made of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

The prior art made of record and not relied upon but considered pertinent to applicant's disclosure includes Tanaami et al. (US 4,590,417), Derwent-ACC-No: 1991-011999 of JP 02285807A, Omagari (US 5,862,464), Terai (JP 406152301A), Verronen (US 5,204,643).
